

Bipartisan Infrastructure Law

President Biden signed the Bipartisan Infrastructure Law (BIL) on November 15th, 2021. BIL is the largest ever long-term investment in America's infrastructure, allocating \$1.2 trillion over ten years to more than 350 distinct programs.

BIL aims to "rebuild America's roads, bridges and rails; expand access to clean drinking water; ensure every American has access to high-speed internet; tackle the climate crisis; advance environmental justice; and invest in communities that have too often been left behind," according to the White House.

Historic bill unlocks billions of dollars for cities and states

Local governments to lead on deploying more than \$860 billion in federal infrastructure funding

FUNDING BY FEDERAL AGENCY

Department of Transportation: \$567.1 billion
 Department of Energy: \$80.8 billion
 Environmental Protection Agency: \$67 billion
